## **-Improved Performance:**

Physically and mentally fit officers make 18% fewer discretionary arrests and reduce use-of-force incidents by 10%, ensuring safer interactions (National Police Foundation).

## **-Enhanced Morale & Retention:**

Wellness programs increase officer job satisfaction by 15% and reduce turnover by 20%, resulting in savings on recruitment costs (IACP report).

## **-Greater Trust:**

Community-funded initiatives increase public trust by 12% and promote positive engagement through events like fitness fundraisers (Urban Institute).

## **-Critical Equipment Needs:**

Donations provide essential gear, such as body armor and communication devices, improving officer safety and response efficiency.
